

14 Bed HDU Facility - Hull

Project:

14 Bed HDU Facility

Location:

Hull Royal Infirmary

Client:

Hull & East Riding Trust

Consulting Engineer:

Alan Wood & Partners

Architect:

Gelder & Kitchen

Project Value:

£1.5 million

Description:

The project brief was to provide a 14 bed ward at third floor level on the existing building. This involved a steel framed building supported off piles and ground beams within the existing hospital.

The project was undertaken on a management contract with extremely tight deadlines. Information was provided in packages to the Contractor as the project progressed.

The job was completed on time and within budget.
