

# Topographical Survey - Hornsea

**Project:**

Topographical Survey

**Location:**

Hornsea

**Client:**

Tesco

**Description:**

Alan Wood & Partners were appointed to carry out a topographical survey for a proposed supermarket site to enable initial schemes to be submitted for planning approval.

Further survey work was then required of the road adjacent to the site including manholes, road markings, road signs and wall heights to enable the design of the supermarket access and assessment of the local road junctions for safety with increased traffic flows.

The survey was carried out using reflectorless equipment to ensure maximum safety for the surveyors.
