

Disabled Facilities - North Lincolnshire

Project:

Specification, Supervision and Administration of Various Disabled Facility Grant Works

Location:

North Lincolnshire

Client:

North Lincolnshire Council

Consulting Engineer:

Alan Wood & Partners

Project Value:

£5,000.00-£50,000.00

Description:

Working in conjunction with occupational therapists, outline proposals are submitted for approval to best suit the individuals needs. The client may require a simple level access shower, an ambulant disabled WC or a full bathroom suite and bedroom accommodation, dependant on their needs.

Once agreed, the necessary works are scheduled and tendered and any necessary statutory permission applied for.

Within this extensive portfolio of adaptations, Alan Wood & Partners has prepared a great variety of proposals including ramps, lifts, sanitary accommodation, kitchens, bedrooms and ceiling hoists.

Wherever possible, alterations are made within existing premises, but more often than not, extensions are the only viable solution.
