

Wind Turbines -Various UK Sites

Project:

Wind Turbine Installation

Location:

Over 50 UK sites

Client:

Earthmill Ltd

Consulting Engineer:

Alan Wood & Partners

Project Value:

£10 million +

Description:

Earthmill Ltd has instructed Alan Wood & Partners to inspect and certify bases for over 50 separate sites across the UK.

The mass gravity bases are for 24m to 36m high towers. The sites have varied from Yorkshire, Cleveland, Lincolnshire, Nottinghamshire, Lancashire and mid Wales.

In addition where the ground conditions have dictated Alan Wood & Partners have also carried out ground investigations, designed piled foundations for both the 24m and 36m high towers

As part of the commission we procured and supervised the piling operations.
